SELL SHEETS - Contain a list of companion sales documents for each type of print in our line. We suggest printing one of each of these to assemble into a display book with a sell sheet on one side and the final print on the other. A 3 ring binder with sheet protectors works well. Simply print the sell sheets and samples onto standard 8.5x11 paper.

RETAILERS PICTURE - Contains pictures of real locations and displays

SIGNAGE - A variety of signage and display pieces for your operation. Modified versions of our signage with your local teams can be requested.

STORE SAMPLES - Full resolution copies of all images with sample names or YOUR NAME personalization. We have found that using the words YOUR NAME on the jersey is more effective than an actual customer name on the sample.

GSI - Ignore. These files are used for certain web only clients

VIDEO LOOP - A promo loop for use as a screen saver.
